

SUCHI ABHIRUTA

Principal iOS Engineer | Technical Lead | 14 Years' Experience

Noida, India | shuchi20.abhi@gmail.com | 9999375389 | Remote • US Time-Zone Overlap

PROFESSIONAL SUMMARY

Technical Lead and iOS Engineer with 14 years of experience building and supporting native iOS applications using Swift, SwiftUI and UIKit. Experienced in application architecture, MVVM, MVC and TCA, Coordinator and Dependency Injection, API integrations, CI/CD, testing, code reviews, technical planning, client communication and team leadership. Hands-on experience with React Native and ReactJS, plus AI-enabled iOS development and SDK integrations.

CORE SKILLS

iOS / Swift	Swift, SwiftUI, UIKit, Objective-C, Combine, Core Data, Core Bluetooth, AVFoundation, StoreKit
Architecture	MVVM, MVC, TCA, Clean Architecture, SOLID, Repository, Coordinator, Dependency Injection, protocol-oriented design
Networking / Data	REST APIs, GraphQL, URLSession, Alamofire, Firebase Firestore, SQLite
Testing / Quality	XCTest, Quick, Nimble, Unit Testing, Functional Testing, Integration Testing, Mocking, Code Review
CI/CD / Build	Jenkins, GitHub Actions, Xcode Cloud, Bitrise, TestFlight, App Store Connect, SPM, CocoaPods, Carthage
Cross-platform / Web	React Native, ReactJS, JavaScript, Kotlin exposure
Tools / Collaboration	Git, GitHub, GitLab, Bitbucket, SVN, Jira, Postman, Figma
AI	AI development tools and agents, StabilityAI SDK, AI-enabled iOS application development
Leadership	Technical planning, requirement analysis, client communication, mentoring, Agile/Scrum, sprint planning

PROFESSIONAL EXPERIENCE

Futurism Technologies | iOS Developer / Technical Lead | Current

- Develop native iOS applications and features using Swift, SwiftUI and UIKit, contributing to architecture, implementation and production support.
- Work across healthcare, behavioral health and AI-focused products; participate in technical discussions, requirement analysis, PR/code reviews and Agile delivery.
- Build and maintain applications using MVVM, MVC and TCA, with REST/API, Firebase and third-party SDK integrations.
- Developed an AI-enabled iOS keyboard using Swift, SwiftUI, TCA and the StabilityAI SDK.

Merkur Gaming India Pvt. Ltd., Noida | Technical Lead | Apr 2022 – 2026

- Led a 6-member technical team; handled technical discussions, requirements, planning, code reviews and delivery support.
- Developed iOS applications using Swift, SwiftUI and UIKit, with additional hands-on exposure to Kotlin.
- Managed Jenkins jobs from configuration through deployment; supported functional and integration testing.
- Created coding guidelines, best-practice and application-security documentation; supported knowledge sharing and mentoring.
- Contributed to MVC-to-MVVM migration and development of Merkur Helper, including integrations and core application workflows.

Merkur Gaming India Pvt. Ltd. | Associate Technical Lead | Mar 2017 – Mar 2022

- Supported iOS development, technical planning, team guidance, Agile delivery and product understanding.

Kellton Tech Solutions, Gurugram | Senior Software Engineer | Nov 2014 – Mar 2017

- Developed iOS applications using Swift and Objective-C; led project activities and supported team members in product development.

Red Pyramid Pvt. Ltd., Noida | Software Developer – Mobility | Mar 2013 – Nov 2014

- Developed native iOS applications and features.

SELECTED PROJECTS

Rethink Care / RethinkBH+ | Swift, SwiftUI, UIKit

- Developed features and resolved production issues for a behavioral-health application; worked directly with the US client on requirements, stand-ups, sprint coordination, PR reviews and progress updates.

Merkur Helper | Swift, UIKit, SwiftUI, Firebase

- Developed core modules and features, handled bug fixes and maintained application performance.

Custom AI Keyboard | Swift, SwiftUI, TCA, StabilityAI SDK

- Developed an iOS keyboard extension enabling AI-powered characters and personalized avatars from selfies; participated in client discussions and sprint planning.

EDUCATION

Master of Computer Application (MCA)

ADDITIONAL

Seeking remote opportunities with US working-hour overlap; open to hands-on iOS development, Principal/Technical Lead responsibilities and architecture-focused roles.
